

'Learning from the Greats': What previous webinar participants said

This programme was first run in April 2021 at the Leica Akademie. It was over-subscribed and so we are very pleased to run it again.

Participant comments included the following:

'Jim's talk was so intoxicating that I rushed out to Soho after the last webinar to make better photos -- thank you again -- a truly wonderful course. Jim explained so clearly what made each photograph so good.'

'Jim is an excellent teacher -- warm, engaging, and knowledgeable. His enthusiasm is infectious. I was introduced to a handful of photographers whose work I do not know and an exploration of their life and work inspires me in my own'

'I think this format of describing numerous successful characteristics of a photograph in theory and then linking these characteristics to a specific photograph provides a learning experience that works very well...excellent. The course content was all relevant and delivered by an enthusiastic and knowledgeable tutor. A powerful and informative course.'

'The tutor was very knowledgeable and enthusiastic. The webinars were well structured and had great supporting material that will enable attendees to carry on learning after the sessions have finished'

'Jim's enthusiasm is infectious and I was sure I would increase my photographic knowledge which I did. You will learn a lot and the pictures shown are immense.'

'I wanted to learn more about collecting classic black and white photographs and better understand how to 'read' a photograph ie what makes a great photograph. Both of my needs

were fully met beyond my expectations. Anyone with an interest in great photographs will thoroughly enjoy this webinar. Fabulous content.'

'£100 well spent. Bravo and thanks.'

'There is so much to learn from the greats and Jim's way of teaching is amazing'

'Jim was great. The seminars were very thoughtfully put together. I've attended a lot of workshops and put this right at the top.'
